TERTIARY - REGIONAL UNIVERSITY

- 1 YEAR

Aust \$15,000* (Fiji/PNG)

Help change the future of the children of the Marovo Lagoon in the Solomon Islands.

In the Marovo Lagoon the cost of education is an overwhelming burden that leaves many children behind. Each year costs approximately \$800 (Australian) a huge sum for subsistence farmers.

HEDS is working to support children in need access education to foster change and development from the bottom up. If you want to give a child a start in life then please get involved.

SCHOOL AND TEACHER PROGRAMS

Does your school want to help those less fortunate? There are opportunities for schools to get involved and be a part of meaningful change for our severely under resourced schools. Please enquire for ways you can help!
